**pH separator**

**IT'S ALL ABOUT YOUR HEALTH<sup>®</sup>**

**MAKE YOUR BODY MORE ALKALINE**

**T-zone** **VIBRATION**  
TECHNOLOGY

# ***STOP PAYING FOR BOTTLED WATER***

Tap water costs about \$0.007 per litre compared to the \$3.37 to \$31.27 per litre charge for specialty bottled water.

Plastic bottles leach plastic DEHP (di-(2-ethylhexyl)phthalate) chemicals into the water.

The Container Recycling Institute says that plastic water bottles are disposed of (not recycled) at the rate of 30 million a day!

It can take nearly 7 times the amount of water in the bottle to actually make the bottle itself.

By drinking T-Zone Treated tap water, you can avoid the fertilizer, pharmaceuticals, disinfectants, and other chemicals found in bottled water.

## IMPORTANCE OF WATER

Water is the pillar of life. Life cannot exist without water. You should be adding pure ionized water to your body in order to keep it properly hydrated.

- Your body is comprised of 70% water and this ratio must be maintained for good health.
- In humans, 70% of the weight and 80% of the brain is water. Even your bones contain 30-40% water. You can live for a month without food but not more than a week without water.
- Water is not only important for your physical body, but is also responsible for your thought processes, feelings and moods.

Water can be beneficial or destructive to your physiology. Do you know the quality of water you are drinking?

## QUALITY OF OUR WATER

The water that makes its way into your home captures environmental pollutants and other toxins. The treatment of water often makes it unhealthy and dangerous to ingest.

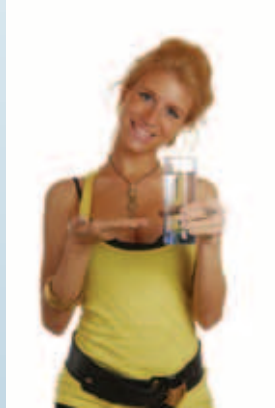

The poor condition of your drinking water is one of the foremost causes for the dramatic increase in disease.

*Distilled Water* is pure, but contains no mineral or trace elements. It is aggressive water, binding itself to all elements and lacking structure. The more distilled water a person drinks, the higher the body acidity becomes. It is only recommended as a way of drawing poisons out of the body, and for only a short period of time.

*Reverse Osmosis* removes too many minerals from the water which our body requires. R.O. water contains too much acid to help a typically acidic body.

More importantly, these all have no value to your health.

*Bottled/Ozonated Water* is an active absorber and when it comes into contact with air, it absorbs carbon dioxide, becoming more acidic. The more ozonated water one drinks, the more acid the body will produce.

## WATER IONIZATION

Water ionization has been scientifically shown to heal the body! - "International studies show that populations with little or no history of illness, such as cancer, drink higher pH (alkaline) waters. After all potential risk factors were considered and factored out, it became evident that they had been drinking waters with a pH of 9.0 to 10.0." Dr. Leonard Horowitz in "Aids and Ebola."

Drinking ionized water can help reverse the effects of acid accumulation in the body and degenerative diseases such as diabetes, high blood pressure, arthritis, osteoporosis, cancers, digestive distress, urea stones, joint pain and kidney problems among others.

Ionized water is FREE of Chlorine, Fluoride, Heavy Metals, Parasites and Organic Hydrocarbons.

Drinking ionized water will maintain and restore your body's natural pH balance for optimal health because it's rich in antioxidants and alkaline minerals.

Drinking ionized water restores your body's acid and alkaline balance.

*"Just about every condition I can think of, from arthritis to diabetes to cancer, is associated with acidity."*

*Dr. Robert O. Young  
noted author, health and diet expert.*

*T-Zone Water Ionizer pH Separator easily installs to your faucet and will improve your tap water creating healing Alkaline water!*

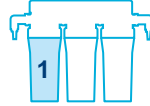

## HOW IONIZATION WORKS

Ionized Water Purifier works by 2 methods:

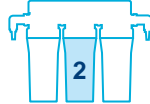

### Filtration

For the highest level of filtration, dual internal filters and an additional pre-filter help remove chlorine, fluoride, bacteria and a host of other contaminants.

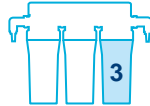

The first removes sediment, sand, dirt, soil, rust and tiny particles.

The second filters organic substances and chlorine.

The third is a finer filter for organic substances and chlorine, as well as residual metals.

### Ionization by Electrolysis

An electric current passes through the water, splitting it into two streams:

- Alkaline ionized water for cooking and healthy drinking
- Acid ionized water for skin treatment, plants, cleaning and disinfecting etc.

Ionization retains the minerals in your home water according to their electrical charge. This results in alkaline ionized water containing essential minerals; calcium, magnesium, sodium, and potassium in a form that can be assimilated.

Unlike distillers or reverse osmosis devices, the T-Zone Water Ionizer pH Separator will leave in all of the healthy minerals your body needs to function properly. Using your water ionizer on demand is convenient and easy, omitting the need to store water.

*"We are aging too quickly because we are acidic and dehydrated! An over acidic body causes most of our health problems today."*

*Dr. Mona Harrison, MD*

*Director International Water Council*

## **BENEFITS OF WATER IONIZATION**

### **GET ENERGIZED!**

Alkaline ionized water is an impressive, powerful and natural antioxidant which renews you at the cellular level. Antioxidant properties of ionized water help neutralize free radicals in your body, which are responsible for aging and disease. Drinking oxygen-rich, antioxidant ionized water straight from your alkaline ionizer gains you the most benefit.

### **GOOD MINERALS REMAIN!**

T-Zone ionized treated water is a great way to add alkaline minerals to your daily diet. Minerals like calcium to protect from osteoporosis, magnesium to help prevent heart disease, sodium and potassium minerals to aid in blood pressure stability.

### **FIGHT DISEASE BY BALANCING BODY'S pH!**

T-Zone's Ionized Water helps to balance your body's pH level. In general, most people's bodies are out of balance and have become too acidic. Symptoms of being over-tired, weak, restless, frustrated, overwhelmed, unfocused or confused are often warning signs that our bodies cannot cope with their toxic overload. Alkaline ionized water dissolves accumulated acid waste restoring the natural balance of your body. T-Zone's water ionizer has 3 levels of alkalinity to choose from! Maintaining your body's alkalinity is your best defence in fighting disease and infection.

### **BETTER HYDRATING!**

T-Zone's water ionizer breaks down clusters of water molecules into smaller micro-clusters. This allows the smaller clusters to pass through the cell walls more easily and hydrate your body more quickly. When minerals are ionized, your body will be able to easily absorb and use them more efficiently. Drinking reverse osmosis or distilled water could lead to mineral deficiencies and the ability of the body to absorb mineral supplements will be compromised.z

"What I found to be wonderful is that family members who did not feel inspired to drink water before have now become water babies. I drank countless cups of coffee for energy and now drink only the ionized water and have found that my skin glows; I have plenty of energy and require less sleep. What is great is that non water drinkers are completely converted to drinking ionized water - nature's medicine, simply because we know it's the best and it tastes great."

*Florence Niemann,  
The Fountainhead, South Africa*

*Susan Lark, M.D. in "The Chemistry of Success"*

"Peak performance and optimal health depend on the body's ability to maintain a slightly alkaline state in virtually all of our cells and tissues...Drinking four to six glasses of alkaline water a day will help to neutralize over acidity and over time will help to restore your buffering ability."

*Dr. Robert Atkins, noted author, health and diet expert*

"The cells and fluids in most people's bodies...are overly acidic. This can cause a lot of health problems. It prevents your body from neutralizing and disposing of harmful, poisonous toxins and leaves you more susceptible to the cell-damaging free radical oxidation that leads to cancer and other diseases."

*Dr. Keith Morishita, "The Hidden Truth of Cancer"*

"...If the blood develops a more acidic condition, then these excess acidic wastes have to be deposited somewhere in the body. If this unhealthy process continues year after year, these areas steadily increase in acidity and their cells begin to die. Other cells in the affected area may survive by becoming abnormal; these are called malignant. This is the beginning of cancer....Modern medicine treats these malignant cells as if they were bacteria and viruses. It uses chemotherapy, radiation and surgery to treat cancer. Yet none of these treatments will help very much if the environment of the body continues to remain acidic."

*Anthony Robbins, Author of "Awaken The Giant Within"*

"Alkalize your body and live a healthier, more energized, and ultimately more fulfilling life. Our acid-alkaline balance is a baseline determinant of our physical health. When you break your old eating patterns, you will find yourself getting back to the real you, filled with the vitality and energy that you desire and deserve."

*Dr. Theodore A. Baroody, N.D., D.C., Ph.D.*

"It is definitely a health benefit to anyone who would use it. I predict that the use of electronically restructured alkaline ionized water will change healthcare on a world-wide basis. Through a very detailed system of testing and analysis covering 170 areas, called Biokinetics, I have seen the following areas strengthened and stabilized on my clients by restructured ionized water: Urethra, Kidney Gravel, Lymph Vessels, Colon, Alkaline/Acid Imbalances, Kidney, Stomach, Pancreas!"

## ALKALINE WATER IMPROVES HEALTH

All of our body functions work better when they are alkaline. Most of our bodies are overly acidic due to:

- poor diet
- poor air quality
- mental & physical stress
- smoking
- alcohol
- inactivity

### Alkaline & Acid

Acidity or alkalinity is measured by "pH", which ranges from 0 on the acid side to 14 on the alkaline.

A pH factor of 7 is considered a neutral state.

Falling below a pH factor of 6.5 could mean the development of degenerative diseases such as cardiovascular disease, diabetes, cancer etc.

*pH Testing Kits are available from T-Zone Health [www.t-zonehealth.com](http://www.t-zonehealth.com)*

"Alkaline water, produced by a Water Ionizer has become the most important advancement in health care since Sir Alexander Fleming's discovery of penicillin."

*Dr. William Kelley, College of Metabolic Medicine, author "Cancer Cure"*

"What I am telling the world is to drink Alkaline water in order to wash out acidic wastes, the universal cause of many adult diseases. In the twenty-first century home, a water ionizer will be a 'must' appliance in the kitchen."

*Sang Whang, Engineer, Scientist, and Author of Reverse Aging*

Alkaline ionized water is the most powerful liquid antioxidant that can rebuild the immune system.

Drinking alkaline water helps the body maintain a healthy pH level. While fruits and vegetables are alkaline foods, many other common foods such as meats, sugar, white flour products, fried foods, soft drinks, processed foods, alcohol, dairy products and other junk foods are acid producing.

The easiest way to assist your body in becoming more alkaline is to drink T-Zone ionized alkaline water.

#### Benefits of Alkaline Water

- High antioxidant source
- Regulates blood pressure
- Adult disease control
- Balances PH levels
- Slows aging process
- Reverses acidosis
- Increases energy levels
- Dissolves urea stones
- Relieves digestive issues
- Improves the taste of food

#### Uses of Acidic Water

- Prolongs the life of cut flowers
- Promotes plant growth
- Excellent hair rinse
- Reduces acne
- Relieves athletes foot, eczema
- Heals burns or heat rash
- Promotes skin beauty

"This water is medicine for those that drink it!"  
*Dr. Chris Rolston*

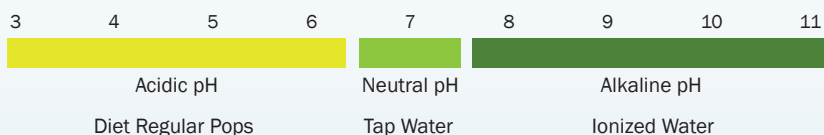

"Alkaline water rids the body of acid waste. After carefully evaluating the results of my advice to hundreds of individuals, I'm convinced that toxicity in the form of acidic waste is the primary cause of degenerative disease."  
*Dr. Sherry Rogers, author, "Detox or Die"*

*Allow your body to maximize its healing potential with water ionization!*

## ACID - ALKALINE: WHAT IS pH?

pH means Potential Hydrogen, which measures the acidity and alkalinity of water. Water having a high pH is rich in hydrogen, which cleanses our body. The scale below identifies the different pH levels:

### pH Scale

Whether it's bottled water or tap water, not all water is the same. While some beverages can offer benefits, they can contribute to acidity in your body. Energy drinks are high in caffeine, promoting dehydration and increasing body acid.

Energy drinks are extremely acidic. Cited from Dr. Robert Young, Author, *The pH Miracle for Weight Loss*, Red Bull has a pH level of 3.26. Diet Pop is even more acidic than energy drinks. Diet Coke having a pH level of 2.97, that's 10,000 times more acidic than pH neutral water! Sports drinks are even more acidic than energy & diet drinks. Gatorade has a pH level of 2.95, more than 10,000 times more acidic than pH neutral water.

Most beverages provide a short span of energy, increase the likelihood of weight gain, and increase acidity levels in your body. A better alternative is to hydrate your body with ionized alkaline drinking water. Ionized water having a high pH has an enormity of antioxidants, which eliminates free radicals, naturally detoxifies, hydrates and oxygenates your body. This facilitates better digestion, increased metabolism, promotes less stress and gives more energy to your body!

## USES FOR ACIDIC WATER

### Acidic Water

The slightly acidic water created with T-Zone Water Ionizer pH Separator is used specifically for sterilization and plants. It offers cleaning and disinfecting advantages for foods and external viruses; psoriasis, rashes, eczema or dry skin. The intensity of acidic water corresponds to the strength of alkalinity, the stronger the alkaline, the stronger the acidic level.

To obtain the full benefit of T-Zone Alkaline Ionized Water, it really should be made on demand! It is estimated that Acidic Water can last between 16-24 hours, and Alkaline water from 3-8 days.

### Drinking Alkaline Water

Having your very own T-Zone Water Ionizer makes it possible to drink as much alkaline-ionized water as your body craves and needs daily, without creating excessive environmental pollutants using plastic bottles or drinking plastic contaminated water. Your cost is significantly less, over the life of the water ionizer machine, than bottled water - only pennies per glass. Even more importantly, you're encouraging a healthier body!

T-Zone Water Ionizer pH Separator has 3 alkaline drinking levels to choose from:

Strong Drinking T-Zone Water (pH 9-9.5)

Medium Drinking T-Zone Water (pH 8-9)

Weak Drinking T-Zone Water (pH 7.5-8)

"After years of very positive continuous clinical experiments that I am conducting with hundreds of clients using electrically restructured alkaline water, it is my opinion that this technology will change the way in which all health providers and the public will approach their health in the coming years. My suggestion is to drink restructured alkaline water whenever possible. "

*Felicia Drury Kliment  
MD, Author, The Acid Alkaline Diet.*

### *Cancer*

Scientists have found that cancer thrives in an acidic environment but cannot survive in an alkaline environment. Dr. Warburg won the Nobel Prize for showing that cancer thrives in an acidic condition. In other words, the main cause for cancer is acidity of the human body. The acid environment restricts the oxygen to cells and leads to cancer. You should be drinking alkalized water to help your body avoid providing an environment for cancer tumours to thrive in.

### *Liver/Kidneys*

A hydrogen ion is positively charged. An Ionizer alters the hydrogen ion into a negative charge. The liver enjoys negative hydrogen ions because it has less acid toxins to process from the blood. The kidney's primary function is to keep the blood alkaline and extract acid. By drinking alkaline ionized water, kidney and liver problems can be helped and minimized. Urine that has a strong odour indicates an unhealthy body. If the body is balanced there is no ammonia and protein in the urine. An over acid body causes kidney stones and gall stones. The kidneys, heart, lungs, brain, intestines, mucous and skin are electrolytic membranes and need electrolyzed water.

### *ADD/ADHD Biopolar Disorder, Stress, Depression*

Ionized water has been shown to reduce the symptoms of hyperactivity and anxiety disorders helping reduce excess rhodium and iridium in the brain. Sourced by Dr. Mona Harrison, MD

### *Beauty*

Alkaline ionized water allows a greater penetration than any other water and therefore reduces wrinkles because the skin is getting the hydration required.

### *Alzheimers*

When alkaline ionized water was used with Alzheimer's patients, their senility problem subsided simply by drinking 4 litres of alkaline water a day. Sourced by Dr. Mona Harrison, MD. Now, almost every hospital in Japan has its own alkaline water supply.

### *Parkinsons/Multiple Sclerosis*

Alkaline ionized water affects all other glands below the pineal gland. That is why the ionized water can lower blood pressure and blood sugar, shrink an enlarged prostate, stimulate sex drive, improve vision, improve MS and Parkinson's Disease, just to name a few.

Sourced by Dr. Mona Harrison, MD

## USES FOR ACIDIC WATER

*Acidic water has some useful applications too!*

### *For Beauty*

It is a fantastic beauty treatment - the acidic water helps to remove dirt, oil, and loosen dead skin cells, leaving your skin brighter and fresher looking. Simply mist or splash acidic water on your face, neck, and hands for younger looking skin!

It is also an antiseptic for cleaning cuts, scrapes, or healing acne. It's also helpful in healing athlete's foot, heat rashes, and fungal infections.

As well, use it as a final hair rinse after or even instead of a hair conditioner - your hair will love it!

You can also use it for brushing your teeth - it will help to reduce bad breath.

### *Household uses*

Use acidic water to rinse fruits and vegetables before eating them.

Clean all your kitchen and bathroom surfaces with acidic water for a cleaner, healthier home.

Also try using slightly acidic water on houseplants or with cut flowers - rain water is also slightly acidic so living plants will thrive on it.

*The outcome is healthier water. Eliminating contaminants like chlorine, heavy metals, parasites, organic hydrocarbons along with many more will never reach your lips!....*

## SPECIFICATIONS

pH Adjustments	3 Alkaline levels, 1 Acidic level
Water	<p>Source : City Tap Water</p> <p>Flow Rate :</p> <ul style="list-style-type: none"> <li>- 2.0L/min [when water pressure is 100KPa{1Kgf/cm}]</li> <li>- 3.0L/min [when water pressure is 200KPa{2Kgf/cm}]</li> </ul> <p>Operating Pressure :</p> <ul style="list-style-type: none"> <li>- 70~350KPa (0.7~3.5Kgf/cm)</li> </ul>
Electrodes	Titanium Coated with platinum 15-20 year life span
Filter features	<ul style="list-style-type: none"> <li>- Dual internal filters with an additional pre-filter for the highest level of filtration</li> <li>- Replaceable easy-change cartridge</li> <li>- Approximately 10-12 months if 30L water is consumed daily.</li> <li>- Approximately 4-6 months if 60L water is consumed daily.</li> <li>- Digital Filter Indicator</li> </ul>
Dimensions	<p>7.7" L x 4.7" W x 12.6" H</p> <p>Weight Approx. 4.5kg (full water: 5.0kg)</p>
Power	220 Volt or 110Volt
Warranty	1 Year Parts and Labour

"The countless names of illnesses do not really matter. What does matter is that they all come from the same root cause... too much tissue acid waste in the body"

*Theodore A. Baroody, N.D., D.C., Ph.D.*

## ***DISCLAIMER***

The Water Ionizer is not a medical device. No medical or health claims are made nor implied. The choice to ionize your water is a personal one and should be researched fully. The information provided on ionizing water filtration is educational only and not meant as replacement for any health challenges that may need attention. It is our belief that every home needs some sort of water purification system in place, due to the high level of pollutants in our water supply.

All quotes and studies in this brochure are available in the public domain. Various models and machines on the market have been used for the purpose of conducting research.

We believe that the T-Zone Vibration Technology Water Ionizer falls within the mainstream of general research performed using water ionizers but make no specific guarantees.

None of the people of studies quoted have specifically endorsed or were approached to endorse our machine. No quote is intended to infer their endorsement of our product.
